Texas Farm Credit, a place when you walk through the door, you feel like you're home, people you work with, places that you're at, makes you feel like you're welcome, and it's a good place to be.

[00:00:09.840] - Speaker 2

Working for Texas Farm Credit is like working with family and like the family that you like. We all support each other and are there for one another. And it's it's just wonderful to have such great people that you work with every single day.

[00:00:21.670] - Speaker 3

It really does feel like a family. From the first day that I got here, I came to the retreats immediately, week one, and just automatically felt that connection with everyone. I feel like if I was to break down on the side of the road, this is the only place I've ever worked for where I feel like someone would drive 60 miles to come help me out.

[00:00:37.110] - Speaker 4

Without question, it has been truly amazing to be able to come to work with an extension of my family.

[00:00:42.930] - Speaker 5

Each individual that I interviewed with talked about family and family being the core of Texas Farm Credit.

[00:00:49.950] - Speaker 6

We truly believe and act out that work life balance. I know a lot of companies talk about work life balance, but I think and I hope that we live that out.

[00:00:59.910] - Speaker 4

I was a single mom when I first started at Texas Firm Credit 16 years ago. When I first started, they knew how important being there for my daughter would be, and it's still the same company today.

[00:01:10.440] - Speaker 7

I've worked previously in banking for 30 years, and it was a fast paced, nonstop, and so much different here at Texas Farm Credit. It's wonderful and I really love it.

[00:01:23.880] - Speaker 3

Everyone's a team here. I'm an It guy. I'm kind of the outskirts of everything here, but it doesn't make me feel one bit less involved in everything that's got going on here.

[00:01:32.530] - Speaker 2

I've never worked with people who are so amazing, who are so kind and generous and hardworking.

[00:01:39.780] - Speaker 5

My favorite part about working for Texas Farm Credit would definitely be the interaction with farmers, ranchers, and producers that provide food and fiber for this growing nation.

[00:01:53.130] - Speaker 1

And world because those people are a lot like me. I care about those people because they come from the same places that I do. They live in the same towns that I live in, and they're just good.

[00:02:07.450] - Speaker 2

Everyday people having the opportunity to say, you know what, we're here for you, and we're here for your best interest. Anything you need, you can call me personally. So I think that's something really awesome that we offer to our borrowers. They're not just a number with us. They're part of our family. We will always be there for our borrowers. Today and tomorrow we're going to be here. We're going to be here to help them, to be that financial assistance if they need it, to support them, whether it be insurance for their crops, just in many different aspects. We will always be here for our borrowers.

[00:02:34.350] - Speaker 8

I think my favorite part about working here so far is just being that part of people's dreams come true. A lot of these people have always dreamed of owning a farm and ranch, and I get to be a part of that journey, so it's pretty fulfilling.

[00:02:49.950] - Speaker 9

I will retire from here. The thing I also love about Texas Farm Credit is it's not a job, it is a career.

[00:02:56.250] - Speaker 2

And I won't leave. Just it purely comes down to the people. I'm here for life. As long as they'll keep me, I'll be here.

[00:03:01.360] - Speaker 8

Working at Texas Farm Credit has essentially been like coming home.

[00:03:05.550] - Speaker 3

It is honestly the best place I've ever worked at coming from a military background and where I love it every single day.

[00:03:11.500] - Speaker 1

I decided to work in Texas Farm Credit because I truly believe that they represent what I believe in.
