2021 Quarterly Report First Quarter

For the Quarter Ended March 31, 2021

REPORT OF MANAGEMENT

The consolidated financial statements of Texas Farm Credit Services (Association) are prepared by management, who is responsible for the statements' integrity and objectivity, including amounts that must necessarily be based on judgments and estimates. The consolidated financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America appropriate in the circumstances. Other financial information included in the quarterly report is consistent with that in the consolidated financial statements and there are no significant changes in the Association's internal controls or in other factors that could significantly affect such controls during the year.

The undersigned certify that we have reviewed this report, that it has been prepared in accordance with all applicable statutory or regulatory requirements, and that the information contained herein is true, accurate and complete to the best of our knowledge and belief.

TEXAS FARM CREDIT SERVICES MANAGEMENT'S DISCUSSION AND ANALYSIS

The following commentary reviews the financial performance of the Texas Farm Credit Services, an Agricultural Credit Association (ACA), referred to as the Association, for the quarter ended March 31, 2021. These comments should be read in conjunction with the accompanying financial statements and the December 31, 2020 Annual Report to Stockholders.

The Association is a member of the Farm Credit System (System), a nationwide network of cooperatively owned financial institutions established by and subject to the provisions of the Farm Credit Act of 1971, as amended, and the regulations of the Farm Credit Administration (FCA) promulgated thereunder.

The consolidated financial statements comprise the operations of the ACA and its wholly-owned subsidiaries. The consolidated financial statements were prepared under the oversight of the Association's audit committee.

Significant Events

The United States has been operating under a presidentially declared emergency since March 13, 2020 due to the Coronavirus Disease 2019 (also referred to as COVID-19). The Association continues during these unprecedented times to fulfill its mission to support agriculture and rural communities by providing access to reliable and consistent credit. Loan volume increased as borrowers increased their liquidity and cash positions. The Association was able to maintain access to borrowings, fund incremental needs and increase liquidity without significant changes to its funding strategies or interest rate risk profiles. Through March 31, 2021 and the date of this report, there have been no observable delinquencies or credit metrics impacting the credit quality of the Association's loan portfolio related to COVID-19. The Association is closely monitoring its loan portfolio overall and is particularly focused on sectors that may be pressured by COVID-19 and its related economic impacts, such as oil and gas, food processing, timber and beef cattle. The Association has adjusted its portfolio monitoring and servicing practices and, if appropriate, will evaluate its allowance for loan losses as changes in outlook occur. Capital levels remained strong to support any adversity or continuing loan demand.

During 2020, the Association implemented a payment deferral program to provide relief to Association borrowers affected by COVID-19. Each borrower is evaluated on an individual basis with payments being deferred for up to 90 days. The Association will continue to monitor the impact of COVID-19 on Association borrowers.

Loan Portfolio

Total loans outstanding at March 31, 2021, including nonaccrual loans and sales contracts, were \$1,654,184,259 compared to \$1,563,259,965 at December 31, 2020, reflecting an increase of 5.8 percent. Nonaccrual loans as a percentage of total loans outstanding were 0.5 percent at March 31, 2021, compared to 0.4 percent at December 31, 2020.

The Association recorded \$182,512 in recoveries and \$0 in charge-offs for the quarter ended March 31, 2021, and \$28,233 in recoveries and \$0 in charge-offs for the same period in 2020. The Association's allowance for loan losses was 0.3 percent and 0.4 percent of total loans outstanding as of March 31,2021, and December 31, 2020, respectively.

In the first quarter of 2021, the Association transferred a loan to the held for sale classification. As of March 31, 2021, the fair value of the loan held for sale was \$2,440,335. Loans held for sale are included within other assets on the balance sheet.

Risk Exposure

High-risk assets include nonaccrual loans, loans that are past due 90 days or more and still accruing interest, formally restructured loans and other property owned. The following table illustrates the Association's components and trends of high-risk assets.

	March 31, 2021			December 31, 2020			
		Amount	%		Amount	%	
Nonaccrual	\$	7,521,019	90.4%	\$	6,643,286	89.4%	
90 days past due and still							
accruing interest		4,596	0.1%		4,549	0.1%	
Formally restructured		793,817	9.5%		782,380	10.5%	
Other property owned, net		-	0.0%		-	0.0%	
Total	\$	8,319,432	100.0%	\$	7,430,215	100.0%	

The majority of high-risk assets related to a small number of larger credits within different commodity concentrations.

Results of Operations

The Association had net income of \$9,691,115 for the three months ended March 31, 2021, as compared to net income of \$7,371,061 for the same period in 2020, reflecting an increase of 31.5 percent. Net interest income was \$11,192,602 for the three months ended March 31, 2021, compared to \$9,507,232 for the same period in 2020.

earning assets	2.84%	2.87%

Three months ended: March 31, 2021 vs. March 31, 2020

	1, mil en 01, 2021 19: 1, mil en 01, 2020					
	Increase (decrease) due to					
	Volume	Rate	Total			
Interest income - loans	\$ 3,604,302	\$ (3,580,326)	\$ 23,976			
Interest income - investments	(23,161)	(559)	(23,720)			
Total interest income	3,581,141	(3,580,885)	256			
Interest expense	1,771,884	(3,456,998)	(1,685,114)			
Net interest income	\$ 1,809,257	\$ (123,887)	\$ 1,685,370			

Interest income for the three ended March 31, 2021, increased by \$256, or 0.0 percent, from the same period of 2020, primarily due to declines in yields on earning assets offset by an increase in average loan volume. Interest expense for the three months ended March 31, 2021, decreased by \$1,685,114, or 20.1 percent, from the same period of 2020 due to a decrease in interest rates offset by an increase in average debt volume. Average loan volume for the first quarter of 2021 was \$1,599,870,662, compared to \$1,330,928,629 in the first quarter of 2020. The average net interest rate spread on the loan portfolio for the first quarter of 2021 was 2.59 percent, compared to 2.49 percent in the first quarter of 2020.

The Association's return on average assets for the three months ended March 31, 2021, was 2.38 percent compared to 2.13 percent for the same period in 2020. The Association's return on average equity for the three months ended March 31, 2021, was 17.61 percent, compared to 14.18 percent for the same period in 2020.

Noninterest income for the three months ended March 31, 2021, increased by \$22,193, or 0.4 percent, compared to the same period of 2020, primarily due to increases in patronage income and loan fees offset by a decrease in financially related services income. Noninterest expense for the three months ended March 31, 2021, increased by \$557,997, or 8.69 percent, compared to the same period of 2020, primarily due to an increase in insurance fund premiums and software expenses.

Liquidity and Funding Sources

The Association secures the majority of its lendable funds from the Farm Credit Bank of Texas (the Bank), which obtains its funds through the issuance of System-wide obligations and with lendable equity. The following schedule summarizes the Association's borrowings.

	March 31,		December 31,	
	 2021	2020		
Note payable to the Bank	\$ 1,459,234,967	\$	1,364,703,280	
Accrued interest on note payable	 2,332,614		2,237,465	
Total	\$ 1,461,567,581	\$	1,366,940,745	

The primary source of liquidity and funding for the Association is a direct loan from the Bank. The outstanding balance of \$1,459,234,967 as of March 31, 2021, is recorded as a liability on the Association's balance sheet. The note carried a weighted average interest rate of 1.94 percent at March 31, 2021. The indebtedness is collateralized by a pledge of substantially all of the Association's assets to the Bank and is governed by a general financing agreement. The increase in note payable to the Bank and related accrued interest payable since December 31, 2020, is due to the Association's increase in debt related to its match funding of new loans. The Association's own funds, which represent the amount of the Association's loan portfolio funded by the Association's equity, were \$196,722,562 at March 31, 2021. The maximum amount the Association may borrow from the Bank as of March 31, 2021, was \$1,657,262,615 as defined by the general financing agreement. The indebtedness continues in effect until the expiration date of the general financing agreement, which is September 30, 2021, unless sooner terminated by the Bank upon the occurrence of an event of default, or by the Association, in the event of a breach of this agreement by the Bank, upon giving the Bank 30 calendar days' prior written notice, or in all other circumstances, upon giving the Bank 120 days' prior written notice.

The liquidity policy of the Association is to manage cash balances, to maximize debt reduction and to increase accrual loan volume. This policy will continue to be pursued in 2021. As borrower payments are received, they are applied to the Association's note payable to the Bank.

Capital Resources

The Association's capital position increased by \$9,869,299 at March 31, 2021, compared to December 31, 2020. The Association's debt as a percentage of members' equity was 6.51:1 as of March 31, 2021, compared to 6.38:1 as of December 31, 2020.

Farm Credit Administration regulations require us to maintain minimums for various regulatory capital ratios. New regulations became effective January 1, 2017, which replaced the previously required core surplus and total surplus ratios with common equity tier 1, tier 1 capital, and total capital risk-based capital ratios. The new regulations also added tier 1 leverage and unallocated retained earnings and equivalents (UREE) ratios. The permanent capital ratio continues to remain in effect, with some modifications to align with the new regulations. As of March 31, 2021, the Association exceeded all regulatory capital requirements.

Significant Recent Accounting Pronouncements

Refer to Note 1 – "Organization and Significant Accounting Policies" in this quarterly report for disclosures of recent accounting pronouncements which may impact the Associations consolidated financial position and results of operations and for critical accounting policies.

Relationship With the Farm Credit Bank of Texas

The Association's financial condition may be impacted by factors that affect the Bank. The financial condition and results of operations of the Bank may materially affect the stockholder's investment in the Association. The Management's Discussion and Analysis and Notes to Financial Statements contained in the 2020 Annual Report of Texas Farm Credit Services more fully describe the Association's relationship with the Bank.

The annual and quarterly stockholder reports of the Bank are available free of charge, upon request. These reports can be obtained by writing to Farm Credit Bank of Texas, Corporate Communications, P.O. Box 202590, Austin, Texas 78720, or by calling (512) 483-9204. The annual and quarterly stockholder reports for the Bank are also available on its website at *www.farmcreditbank.com*.

The Association's quarterly stockholder reports are also available free of charge, upon request. These reports can be obtained by writing to Texas Farm Credit Services, 545 S. Hwy 77, Robstown, Texas, 78380 or calling (361) 387-8563. The annual and quarterly stockholder reports for the Association are also available on its website at *www.texasfcs.com*. Copies of the Association's quarterly stockholder reports can also be requested by e-mailing kibrom@texasfcs.com.

TEXAS FARM CREDIT SERVICES NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

Unaudited

NOTE 1 — ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES:

The Texas Farm Credit Services (Agricultural Credit Association), referred to as the Association, is a member-owned cooperative that provides credit and credit-related services to or for the benefit of eligible borrowers/stockholders for qualified agricultural purposes. The Association serves the counties of Anderson, Angelina, Aransas, Atascosa, Austin, Bandera, Bee, Bexar, Bowie, Brooks, Cameron, Camp, Cass, Chambers, Cherokee, Collin, Cook, Dallas, Delta, Denton, DeWitt, Dimmit, Duval, Edwards, Fannin, Fayette, Franklin, Freestone, Frio, Goliad, Gonzales, Grayson, Gregg, Guadalupe, Hardin, Harrison, Henderson, Hidalgo, Hopkins, Houston, Hunt, Jasper, Jefferson, Jim Hogg, Jim Wells, Karnes, Kaufman, Kenedy, Kerr, Kinney, Kleberg, Lamar, LaSalle, Lavaca, Leon, Liberty, Limestone, Live Oak, Marion, Maverick, McMullen, Medina, Montgomery, Morris, Nacogdoches, Newton, Nueces, Orange, Panola, Polk, Rains, Real, Red River, Rockwall, Rusk, Sabine, San Augustine, San Jacinto, San Patricio, Shelby, Smith, Starr, Titus, Trinity, Tyler, Upshur, Uvalde, Val Verde, Van Zandt, Walker, Waller, Washington, Webb, Willacy, Wilson, Wood, Zapata, and Zavala, parts of Refugio, and the lower half of Lee in the State of Texas. The Association is a lending institution of the Farm Credit System (the System), which was established by Acts of Congress to meet the needs of American agriculture.

The accompanying unaudited financial statements have been prepared in accordance with accounting principles generally accepted in the U.S. (GAAP) for interim financial information. Accordingly, they do not include all of the disclosures required by GAAP for annual financial statements and should be read in conjunction with the audited financial statements as of and for the year ended December 31, 2020, as contained in the 2020 Annual Report to Stockholders.

In the opinion of management, the accompanying consolidated financial statements contain all adjustments necessary for a fair presentation of the interim financial condition and results of operations and conform with generally accepted accounting principles (GAAP), except for the inclusion of a statement of cash flows. GAAP require a business enterprise that provides a set of financial statements reporting both financial position and results of operations to also provide a statement of cash flows for each period for which results of operations are provided. In regulations issued by FCA, associations have the option to exclude statements of cash flows in interim financial statements. Therefore, the Association has elected not to include a statement of cash flows in these consolidated financial statements. These interim financial statements should be read in conjunction with the audited financial statements as of and for the year ended December 31, 2020, as contained in the 2020 Annual Report to Stockholders. The preparation of financial statements in accordance with GAAP requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates. The results of operations for interim periods are not necessarily indicative of the results to be expected for the full year ending December 31, 2021. Descriptions of the significant accounting policies are included in the 2020 Annual Report to Stockholders. In the opinion of management, these policies and the presentation of the interim financial condition and results of operations conform with GAAP and prevailing practices within the banking industry.

In January 2021, the Financial Accounting Standards Board (FASB) issued an update whereby certain derivative instruments may be modified to change the rate used for margining, discounting, or contract price alignment. An entity may elect to apply the new amendments on a full retrospective basis as of any date from the beginning of an interim period that includes or is subsequent to March 12, 2020, or on a prospective basis to new modifications from any date within an interim period that includes or is subsequent to the date of the update, up to the date that financial statements are available to be issued. These amendments do not apply to contract modifications made or new hedging relationships entered into after December 31, 2022, and existing hedging relationships evaluated for effectiveness in periods after December 31, 2022. The Association is evaluating the impact of adoption on the Association's financial condition and its results of operations.

In March 2020, the FASB issued guidance entitled "Facilitation of the Effects of Reference Rate Reform on Financial Reporting." The guidance provides optional expedients and exceptions for applying GAAP to contracts, hedging relationships and other transactions affected by reference rate reform. The guidance simplifies the accounting evaluation of contract modifications that replace a reference rate affected by reference rate reform and contemporaneous modifications of other contracts related to the replacement of the reference rate. With respect to hedge accounting, the guidance allows amendment of formal designation and documentation of hedging relationships in certain circumstances as a result of reference rate reform and provides additional expedients for different types of hedges, if certain criteria are met. The optional amendments are effective as of March 12, 2020, through December 31, 2022. The Association is evaluating the impact of adoption on the Association's financial condition and its results of operations.

In December 2019, the FASB issued guidance entitled "Simplifying the Accounting for Income Taxes." This guidance eliminates certain intra period tax allocations, foreign deferred tax recognition and interim period tax calculations. In addition, the guidance simplifies disclosure regarding capital and franchise taxes, the allocation of goodwill in business combinations, subsidiary financial statements and other disclosures. The new guidance is intended to eliminate and/or simplify certain aspects of income tax accounting

that are complex or that require significant judgment in application or presentation. The guidance becomes effective for fiscal years beginning after December 15, 2021. Early adoption of the guidance is permitted and the Association adopted this guidance on January 1, 2020. The adoption of this guidance did not materially impact the Associations' financial condition or results of operations.

In August 2018, the FASB issued guidance entitled "Disclosure Framework — Changes to the Disclosure Requirements for Defined Benefit Plans." The guidance modifies the disclosure requirements for employers that sponsor defined benefit pension or other postretirement plans. This guidance became effective for fiscal years ending after December 15, 2020. The guidance was applied on a retrospective basis for all periods. The adoption of this guidance did not impact the Association's financial condition or its results of operations, but did impact the employee benefit plan disclosures.

In June 2016, the FASB issued guidance entitled "Measurement of Credit Losses on Financial Instruments." The guidance replaces the current incurred loss impairment methodology with a methodology that reflects expected credit losses and requires consideration of a broader range of reasonable and supportable information to inform credit loss estimates. Credit losses relating to available-forsale securities would also be recorded through an allowance for credit losses. For public business entities that are not U.S. Securities and Exchange Commission filers this guidance was to become effective for interim and annual periods beginning after December 15, 2020, with early application permitted. In November 2019, the FASB issued an update that amends the mandatory effective date for this guidance for certain associations. The change resulted from a change in the effective date philosophy that extends and simplifies the adoption by staggering the dates between large public entities and other entities. As a result of the change, the new credit loss standard, for those associations qualifying for the delay, becomes effective for interim and annual reporting periods beginning after December 15, 2022, with early adoption permitted. The Association qualifies for the delay in the adoption date. The Association continues to evaluate the impact of adoption on the Association's financial condition and its results of operations.

The consolidated financial statements comprise the operations of the Association and its wholly-owned subsidiaries. The preparation of these consolidated financial statements requires the use of management's estimates. The results for the quarter ended March 31, 2021, are not necessarily indicative of the results to be expected for the year ended December 31, 2020. Certain amounts in the prior period's financial statements have been reclassified to conform to current financial statement presentation.

NOTE 2 — INVESTMENTS:

The following is a summary of Farmer Mac agricultural mortgage-backed securities:

			March 31, 20	21

Mission-related investments	1,564,502	1,579,523
Rural residential real estate	1,183,574	1,198,047
Total	\$ 1,654,184,259	\$ 1,563,259,965

The fair value of loans held for sale as of March 31, 2021 totaled \$2,440,335. The portfolio is made up of one loan transferred to held for sale classification in the first quarter 2021. There were no loans held for sale as of December 31, 2020. Loans held for sale are included within other assets on the balance sheet.

The Association purchases or sells participation interests with other parties in order to diversify risk, manage loan volume and comply with Farm Credit Administration regulations. The following table presents information regarding the balances of participations purchased and sold at March 31, 2021:

	Other Farm C	redit Institutions	Non-Farm Cre	edit Institutions	Total			
	Participations	Participations	Participations	Participations	Participations	Participations		
	Purchased	Sold	Purchased	Sold	Purchased	Sold		
Real estate mortgage	\$ 41,161,008	\$ 133,049,513	\$ 13,930,886	\$ -	\$ 55,091,894	\$ 133,049,513		
Production and intermediate term	35,088,920	266,554	=	-	35,088,920	266,554

Water and waste water	2,055,593				2,055,593	<u> </u>		
Total	\$ 194,342,069	\$ 133,316,067	\$ 13,930,886	\$ -	\$ 208,272,955	\$ 133,316,067		

The Association is authorized under the Farm Credit Act to accept "advance conditional payments" (ACPs) from borrowers. To the extent the borrower's access to such ACPs is restricted and the legal right of setoff exists, the ACPs are netted against the borrower's related loan balance. Unrestricted advance conditional payments are included in other liabilities. ACPs are not insured, and interest is generally paid by the Association on such balances. Balances of ACPs were \$487,835 and \$490,138 at March 31, 2021, and December 31, 2020, respectively.

Nonperforming assets (including related accrued interest) and related credit quality statistics are as follows:

	 March 31, 2021	December 31, 2020
Nonaccrual loans:	_	
Real estate mortgage	\$ 4,879,893	\$ 3,905,786
Production and intermediate term	1,973,160	2,737,500

Agribusiness	4,539	4,539
Total accruing loans 90 days or more		
past due	4,596	4,549
Total nonperforming loans Other property owned	8,319,432	7,430,215
Total nonperforming assets	\$ 8,319,432	\$ 7,430,215

One credit quality indicator utilized by the Association is the Farm Credit Administration Uniform Loan Classification System that categorizes loans into five categories. The categories are defined as follows:

- Acceptable assets are expected to be fully collectible and represent the highest quality;
- Other assets especially mentioned (OAEM) assets are currently collectible but exhibit some potential weakness;
- Substandard assets exhibit some serious weakness in repayment capacity, equity and/or collateral pledged on the loan;
- Doubtful assets exhibit similar weaknesses to substandard assets; however, doubtful assets have additional weaknesses in existing factors, conditions and values that make collection in full highly questionable; and
- Loss assets are considered uncollectible.

The following table shows loans and related accrued interest as a percentage of total loans and related accrued interest receivable by loan type as of:

Note: The recorded investment in the receivable is the face amount increased or decreased by applicable accrued interest and unamortized premium, discount, finance charges or acquisition costs, and may also reflect a previous direct write-down of the investment.

A restructuring of a debt constitutes a troubled debt restructuring if the creditor for economic or legal reasons related to the debtor's financial difficulties grants a concession to the debtor that it would not otherwise consider. Troubled debt restructurings (TDRs) are undertaken in order to improve the likelihood of recovery on the loan and may include, but are not limited to, forgiveness of principal or interest, interest rate reductions that are lower than the current market rate for new debt with similar risk, or significant term or payment extensions.

As of March 31, 2021, the total recorded investment of troubled debt restructured loans was 2,759,245, including \$1,965,428 classified as nonaccrual and \$793,817 classified as accrual, with specific allowance for loan losses of \$17,620. As of March 31, 2021 and December 31, 2020, there were no commitments to lend funds to borrowers whose loan terms have been modified in a troubled debt restructuring.

There were no troubled debt restructurings that occurred during the three months ended March 31, 2021.

In restructurings where principal is forgiven, the amount of the forgiveness is immediately charged off. In restructurings where accrued interest is forgiven, the interest is reversed (if current year interest) or charged off (if prior year interest). There were no charge-offs recorded for the quarter ending March 31, 2021.

The predominant form of concession granted for troubled debt restructuring includes loan modifications in which interest rates are lower than the borrower could otherwise receive in the market based on credit worthiness. Other types of modifications include extension of the term, principal or accrued interest reductions, interest rate decreases and delayed payments, among others. At times,

these terms might be offset with incremental payments, collateral or new borrower guarantees, in which case we assess all of the modified terms to determine if the overall modification qualifies as a troubled debt restructuring.

There were no loans that met the accounting criteria as a troubled debt restructuring and that occurred within the previous 12 months and for which there was a subsequent payment default during the period. A payment default is defined as a payment that is 30 days past due after the date the loan was restructured.

The Association made no additional commitments to lend to borrowers whose loans have been modified in TDRs at March 31, 2021 and at December 31, 2020.

The following table provides information on outstanding loans restructured in troubled debt restructurings at period end. These loans are included as impaired loans in the impaired loan table at:

	Loans Modif	fied as TDRs	TDRs in Nona	ccrual Status*
	March 31, 2021	December 31, 2020	March 31, 2021	December 31, 2020

NOTE 4 —LEASES:

The components of lease expense were as follows:

		Ended		
Classification	Marc	ch 31, 2021	Marc	ch 31, 2020
Right of use asset	\$	29,807	\$	32,157
		3,600		5,401
		4,825		1,628
	\$	38,232	\$	39,186
		Right of use asset \$	Classification March 31, 2021 Right of use asset \$ 29,807 3,600 4,825	Right of use asset \$ 29,807 \$ 3,600 \$ 4,825

Other information related to leases was as follows:

		For the Three	Months 1	Ended
	Marc	ch 31, 2021	Marc	ch 31, 2020
Cash paid for amounts included in the measurement of lease liabilities: Operating cash flows from operating leases	\$	34,632	\$	33,957
Right-of-use assets obtained in exchange for lease obligations: Operating leases	\$	29,807	\$	32,157

Lease term and discount rate are as follows:

	March 31, 2021	December 31, 2020
Weighted average remaining lease term in years Operating leases	3.75	3.68
Weighted average discount rate	1.23%	1.30%
Operating leases	1.25 %	1.30%

Future minimum lease payments under non-cancellable leases as of March 31, 2021 were as follows:

	Operating		
	Leases		
2021 (excluding the three months ended 3/31/21)	\$	86,713	
2022		91,105	
2023		48,532	
2024		44,742	
2025		45,653	
Thereafter		7,634	
Total	\$	324,379	

NOTE 5 — CAPITAL:

The Association's board of directors has established a Capital Adequacy Plan (Plan) that includes the capital targets that are necessary to achieve the Association's capital adequacy goals as well as the minimum permanent capital standards. The Plan monitors projected patronage distributions, equity retirements and other actions that may decrease the Association's permanent capital. In addition to factors that must be considered in meeting the minimum standards, the board of directors also monitors the following factors: capability of management; quality of operating policies, procedures and internal controls; quality and quantity of earnings; asset quality and the adequacy of the allowance for losses to absorb potential loss within the loan and lease portfolios; sufficiency of liquid funds; needs of the Association's customer base; and any other risk-oriented activities, such as funding and interest rate risk, potential obligations under joint and several liability, contingent and off-balance-sheet liabilities or other conditions warranting additional capital. At least quarterly, management reviews the Association's goals and objectives with the board.

Regulatory Capitalization Requirements

	Regulatory Requirements Including Capital	As of
Risk-adjusted:	Conservation Buffers	March 31, 2021
Common equity tier 1 ratio	7.00%	12.18%

An additional component of equity is accumulated other comprehensive income (loss), which is reported net of taxes, is as follows:

Accum Other Comp Loss					
March 31, 2021	Net of Tax				
Nonpension postretirement benefits	\$	(580,105)			
March 31, 2020	N	let of Tax			
Nonpension postretirement benefits	\$	(705,395)			

The Association's accumulated other comprehensive income (loss) relates entirely to its nonpension other postretirement benefits. Amortization of prior service (credits) cost and of actuarial (gain) loss are reflected in "Salaries and employee benefits" in the Consolidated Statements of Comprehensive Income. The following table summarizes the change in accumulated other comprehensive income (loss) for the three months ended March 31:

	2021		2020		
Accumulated other comprehensive loss at January 1	\$	(580,789)	\$	(710,138)

in salaries and employee benefits		(5,429)		(5,429)	
Amortization of actuarial gain included					
in salaries and employee benefits		6,113		10,172	
Other comprehensive income, net of tax	-	684		4,743	
Accumulated other comprehensive loss at March 31	\$	(580,105)	\$	(705,395)	

NOTE 6 — INCOME TAXES:

Texas Farm Credit Services conducts its business activities through two wholly-owned subsidiaries. Long-term mortgage lending activities are conducted through a wholly-owned FLCA subsidiary which is exempt from federal and state income tax. Short- and intermediate-term lending activities are conducted through a wholly-owned PCA subsidiary. The PCA subsidiary and the ACA holding company are subject to income tax. Texas Farm credit Services operates as a cooperative that qualifies for tax treatment under Subchapter T of the Internal Revenue Code. Accordingly, under specified conditions, Texas Farm Credit Services can exclude from taxable income amounts distributed as qualified patronage dividends in the form of cash, stock or allocated retained earnings. Provisions for income taxes are made only on those taxable earnings that will not be distributed as qualified patronage dividends. Deferred taxes are recorded at the tax effect of all temporary differences based on the assumption that such temporary differences are retained by the Association and will therefore impact future tax payments. A valuation allowance is provided against deferred tax assets to the extent that it is more likely than not (more than 50 percent probability), based on management's estimate, that they will not be realized. The Association has no valuation allowance on its deferred tax assets because management estimates full utilization of these assets.

NOTE 7 — FAIR VALUE MEASUREMENTS:

FASB guidance defines fair value as the exchange price that would be received for an asset or paid to transfer a liability in the principal or most advantageous market for the asset or liability. See Note 15 to the 2020 Annual Report to Stockholders for a more complete description.

Assets and liabilities measured at fair value on a nonrecurring basis for each of the fair value hierarchy values are summarized below:

March 31, 2021	Fair Value Measurement Using						
	Lev	el 1	Lev	el 2	Level 3		
Assets:							
Loans*	\$	-	\$	-	\$	529,448	
Other property owned		-		-		-	
December 31, 2020	Fair Value Measurement Using					ıg	
	Lev	el 1	Lev	rel 2		Level 3	
Assets:							
Loans*	\$	-	\$	-	\$	100,575	
Other property owned		-		-		-	

*Represents the fair value of certain loans that were evaluated for impairment under the authoritative guidance "Accounting by Creditors for Impairment of a Loan." The fair value was based upon the underlying collateral since these were collateral-dependent loans for which real estate is the collateral.

Information About Recurring and Nonrecurring Level 3 Fair Value Measurements

With regard to nonrecurring measurements for impaired loans and other property owned, it is not practicable to provide specific information on inputs, as each collateral property is unique. System associations utilize appraisals to value these loans and other property owned and take into account unobservable inputs, such as income and expense, comparable sales, replacement cost and comparability adjustments.

Valuation Techniques

As more fully discussed in Note 2 to the 2020 Annual Report to Stockholders, authoritative guidance establishes a fair value hierarchy, which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The following represent a brief summary of the valuation techniques used for the Association's assets and liabilities. For a more complete description, see Notes to the 2020 Annual Report to Stockholders

Loans Evaluated for Impairment

For certain loans evaluated for impairment under FASB impairment guidance, the fair value is based upon the underlying collateral since the loans are collateral-dependent loans for which real estate is the collateral. The fair value measurement process uses independent appraisals and other market-based information, but in many cases it also requires significant input based on management's knowledge of and judgment about current market conditions, specific issues relating to the collateral and other matters. As a result, a majority of these loans have fair value measurements that fall within Level 3 of the fair value hierarchy. When the value of the real estate, less estimated costs to sell, is less than the principal balance of the loan, a specific reserve is established. The fair value of these loans would fall under Level 2 of the hierarchy if the process uses independent appraisals and other market-based information.

Other Property Owned

Other property owned is generally classified as Level 3 of the fair value hierarchy. The process for measuring the fair value of the other property owned involves the use of independent appraisals and other market-based information. Costs to sell represent transaction costs and are not included as a component of the asset's fair value. As a result, these fair value measurements fall within Level 3 of the hierarchy.

Cash

For cash, the carrying amount is a reasonable estimate of fair value.

Loans

Fair value is estimated by discounting the expected future cash flows using the Associations' current interest rates at which similar loans would be made to borrowers with similar credit risk. The discount rates are based on the Associations' current loan origination rates as well as management's estimates of credit risk. Management has no basis to determine whether the fair values presented would be indicative of the value negotiated in an actual sale and could be less.

For purposes of estimating fair value of accruing loans, the loan portfolio is segregated into pools of loans with homogeneous characteristics. Expected future cash flows, primarily based on contractual terms, and interest rates reflecting appropriate credit risk are separately determined for each individual pool.

The fair value of loans in nonaccrual status that are current as to principal and interest is estimated as described above, with appropriately higher interest rates which reflect the uncertainty of continued cash flows. For collateral-dependent impaired loans, it is assumed that collection will result only from the disposition of the underlying collateral.

NOTE 8 — EMPLOYEE BENEFIT PLANS:

The following table summarizes the components of net periodic benefit costs of nonpension other postretirement employee benefits for the three months ended March 31:

	Other Benefits				
		2021	2020		
Service cost	\$	14,787	\$	14,302	
Interest cost		32,529		40,313	
Amortization of prior service credits		(5,429)		(5,429)	
Amortization of net actuarial loss		6,113		10,171	
Net periodic benefit cost	\$	48,000	\$	59,357	

The Association's liability for the unfunded accumulated obligation for these benefits at March 31, 2021, was \$4,732,577 and is included in other liabilities on the balance sheet.

The components of net periodic benefit cost other than the service cost component are included in the line item "other components of net periodic postretirement benefit cost" in the income statement.

The structure of the district's defined benefit pension plan is characterized as multiemployer since the assets, liabilities and cost of the plan are not segregated or separately accounted for by participating employers (Bank and associations). The Association recognizes its amortized annual contributions to the plan as an expense. The Association previously disclosed in its financial statements for the year ended December 31, 2020, that it expected to contribute \$632,970 to the district's defined benefit pension plan in 2021. As of March 31, 2021, \$158,243 of contributions have been expensed. The Association presently does not anticipate additional contributions over \$632,970 will be required in 2021.

NOTE 9 — COMMITMENTS AND CONTINGENT LIABILITIES:

The Association is involved in various legal proceedings in the normal course of business. In the opinion of legal counsel and management, there are no legal proceedings at this time that are likely to materially affect the Association.

NOTE 10 — SUBSEQUENT EVENTS:

The Association has evaluated subsequent events through May 6, 2021, which is the date the financial statements were issued. There are no other significant events requiring disclosure as of this date.
